"My horses must rest," said the Frenchman, calmly taking off his gloves. "Perhaps the princess will see me."

A few minutes later he was shown into the morning room.

"Did I see Mlle. Delafont on snowshoes in the forest as I came along?" De Chauville asked the servant in perfect Russian before the man left the room.

"Doubtless, excellency. She went out on her snowshoes half an hour ago."

When Etta opened the door a minute later he bowed low without speaking. There was a suggestion of triumph in his attitude.

"Well?" said the princess, without acknowledging his salutation.

De Chauville raised his eyebrows with the resigned surprise of a man to whom no feminine humor is new. He brought forward a chair.

"Will you sit?" he said, with exaggerated courtesy. "I have much to say to you. I have the good fortune to find you alone."

"So you have informed me," she replied coldly.

De Chauville leaned against the mantelpiece and looked down at her thoughtfully.

"At the bear hunt the other day I had the misfortune to—well, to fall out with the prince. We were not quite at one on a question of etiquette. He thought that I ought to have fired. I did not fire; I was not ready. It appears that the prince considered himself to be in danger. He was nervous—flurried."

"You are not always artistic in your untruths," interrupted Etta. "I know nothing of the incident to which you refer, but in lying you should always endeavor to be consistent. I am sure Paul was not nervous or flurried."

De Chauville smiled impudently. His end was gained. Etta obviously knew nothing of his attempt to murder Paul at the bear hunt.

"It was nothing," he went on. "We did not come to words. But we have never been much in sympathy. The coldness is intensified; that is all. So I took the opportunity of calling when I knew he was away."

"How did you know he was away?" "Ah, madame, I know more than I am credited with."

Etta gave a little laugh and shrugged her shoulders.

"You do not care for Osterno?" suggested De Chauville.

"I hate it!"

"Precisely, and I am here to help you to get away from Russia once for all. Ah, you may shake your head. Some day perhaps I shall succeed in convincing you that I have only your interests at heart. I am here, princess, to make a little arrangement with you—a final arrangement, I hope."

He paused, looking at her with a sudden gleam in his eyes.

"Not the last of all," he added in a different tone. "That will make you my wife."

Etta allowed this statement to pass unchallenged. Her courage and energy were not exhausted. She was learning to nurse her forces.

**\$500  
Reward  
For  
Women  
Who  
Cannot  
Be  
Cured.**

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Profluvium, or Falling of the Uterus, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I used four bottles of your 'Favorite Prescription' and one of 'Golden Medical Discovery,'" writes Mrs. Elmer D. Shearer, of Mount Hope, Lancaster Co., Pa., "and can say that I am cured of that dreaded disease, uterine trouble, in better health than ever before. Every one who knows me is surprised to see me look so well. In June I was so poor in health that times I could not walk. To-day I am cured. Tell everybody that Dr. Pierce's medicines cured me."

"I refuse to betray my husband!"

ed to look down into his mean, foxlike face—"yes, I refuse to betray my husband!"

"Stop! He is not your husband!"

Slowly the anger faded out of her eyes. Her clenched fists relaxed.

"What do you mean?" she whispered.

"What do you mean?"

"Sydney Bamforth is your husband," said the Frenchman, without taking his eyes from her face.

"He is dead!" she hissed.

"He died at Tver," she said, but there was no conviction in her voice. With her title and position to hold to she could face the world. Without these what was she?

"A local newspaper reports that the body of a man was discovered on the plains of Tver and duly buried in the pauper cemetery," said De Chauville indifferently. "Your husband—Sydney Bamforth, I mean—was for reasons which need not be gone into here in the neighborhood of Tver at the time. A police officer, who has since been trans-

ferred to Odessa, was of the opinion that the dead man was a foreigner. There are about 12,000 foreigners in Tver, operatives in the manufacturing. Your husband, Sydney Bamforth, left Tver to proceed eastward and cross Siberia to China in order to avoid the emissaries of the Charity league, who were looking out for him at the western frontier. He will be due at one of the treaty ports in China in about a month. Upon the supposition that the body discovered on the plains of Tver was that of your husband you took the opportunity of becoming a princess. It was enterprising. I admire your spirit. But it was dangerous. I, madame, can suppress Sydney Bamforth when he turns up. I have two arrows in my quiver for him. One is the Charity league, the other the Russian government, who want him. Your husband—I beg your pardon, the prince—would perhaps take a different view of the case. It is a pretty story. I will tell it to him unless I have your implicit obedience."

Etta stood dry lipped before him. She tried to speak, but no words came from her lips.

"Thursday evening before dinner," said De Chauville.

And he left her standing on the hearth rug, her lips moving and framing no words.

(TO BE CONTINUED.)

### A GREAT DOCK FIRE

Blaze on New Orleans River Front Destroys Millions.

New Orleans, Feb. 27.—Fire involving millions of dollars' loss in physical property, and that strikes a serious, if temporary, blow at the immense export trade of New Orleans, swept the river front last night and wiped out the vast freight terminals of the Illinois Central, known as the Stuyvesant docks. Nearly a dozen squares of modern wharves and freight sheds, two magnificent grain elevators, hundreds of loaded cars and vast quantities of freight, including 20,000 bales of cotton, were destroyed, together with a large number of small residences. Actual estimates of the losses are impossible today, though they may exceed \$5,000,000.

The Stuyvesant docks extend from Louisiana avenue almost to Napoleon avenue, a distance of twelve squares. The wharves between those two points were covered with miles of trackage and steel and iron sheds ran the whole distance. The two grain elevators were of the most modern construction, the upper one having a capacity of a million bushels.

Thousands of bales of cotton, several hundred thousand packages of sugar, great quantities of cottonseed oil and on cake, lumber and every conceivable variety of freight filled the warehouses and sheds. The fire was said to have resulted from a journal that had not been sufficiently oiled. The whole plant was equipped with gigantic water tanks and fire extinguishing apparatus, but the blaze, small at the beginning, almost instantly got beyond control, communicating through the conveyors to the lower elevator and some of the sheds. In half an hour the fire covered two squares and was sweeping with irresistible fury both up and down the river.

### NOT CAST DOWN

Hot Springs Will Immediately Repair Its Losses.

Hot Springs, Ark., Feb. 27.—Today is a day of gloom in Hot Springs. The first estimates of the damage done by the great conflagration of Saturday were not exaggerated. More than forty blocks were eaten away by the flames and the most conservative estimates place the loss at a million and a half dollars, and several insurance men state the figures will reach two million.

The three unknown bodies recovered are the only known fatalities. The citizens' relief committee has the situation well in hand. The amount subscribed for relief totals \$12,000 and it is being steadily increased. The committee feel that they can feed all the homeless. Voluntary subscriptions from the outside are being accepted. The fire-swept area lies principally in the residence portion of the city. The principal business portion of Hot Springs, including the hotels and bath-houses, are not affected. That the devastated district will be speedily rebuilt is evidenced by expressions heard on all sides. Property owners are already planning with architects and in three instances carpenters began work Sunday on temporary structures.

### Little Damage Anticipated.

Louisville, Ky., Feb. 27.—The ice gorge which has filled the Ohio river extending nearly seventy-five miles above Louisville, began moving out Sunday. Although the ice was in some places piled up twenty feet high, it did little damage because the local harbor was well cleared out and the ice itself partly rotted, thus allowing it to spread by the time it reached the vicinity of the shipping. River men anticipate little damage unless weather and river conditions should change before the last of the ice passes, which at the present rate will be in about two days.

Congressional Memorial Service. Washington, Feb. 27.—The memories of three deceased members of the 58th congress were subjects of tribute by the house of representatives in a session which occupied that body for nearly three hours Sunday. Tributes were paid to the late Representative Mahoney of Illinois, the late Representative Croft of South Carolina, and the late Representative Otis of New York.

## BATTLE IS RAGING

Probably Decisive Conflict Now In Progress on the Hun River.

### JAPS HAVE ADVANTAGE

Thus Far the Tide of Battle Has Been In Favor of the Mikado's Doughty Soldiers.

Gen. Kuropatkin Reports That the Per Centage of Slain Has Been Very Large.

St. Petersburg, Feb. 27.—An action of no mean proportions is in progress on the Russian left flank. The advantage thus far is on the side of the Japanese, though at heavy cost. From advices from the front it is difficult to say how severe the losses have been or how decisive the reverse, and whether the Japanese are likely to attempt to drive in the Russian left much further. General Kuropatkin evidently has been trying to establish his left flank far in advance, to command the crossings of the Taitse river, the operation being a counterpart of General Gripenberg's movement on the right flank to secure the fords of the Hun river preparatory to the breaking up of the ice in the spring. The scene of the operations is fifty miles southeast of Mukden, beyond Da pass, an important defile commanding the road to Pushun. Both armies occupying apparently impregnable positions on the centers, General Kuropatkin evidently planned to begin widely sweeping operations on both flanks, but the Japanese countered hard.

Dispatches from the front indicate that the weather is fine and favorable for operations, and that all is quiet on the Russian right wing. According to a Vladivostok dispatch the entrance to that harbor is open, and the squadron, which is seaworthy, is apparently taking no risks, but is saving its strength for co-operation with Vice Admiral Rojestvensky's squadron.

Percentage of Killed Is Large. St. Petersburg, Feb. 27.—General Kuropatkin has telegraphed the emperor under date of Feb. 25 as follows: "At 5 o'clock this morning the enemy occupied Tsinkhetchen. Exact reports of our yesterday's losses have not yet been received. There are 12 officers and about 300 men wounded in the hospital at Sanlunyu. The percentage of killed is very large. The commander of the detachment reports acts of bravery by many detached bodies of troops." General Kuropatkin instances many cases of close fighting and bayonet charges.

GUARDING POLICEMEN In Warsaw a Singular Precaution Is Necessary.

Warsaw, Feb. 27.—Every policeman on duty here is accompanied by a soldier. The authorities, fearing a strike by the police, adopted this precaution so that in the event of an officer leaving his post it would not be unprotected. The measure is further intended to guard policemen from possible attack by strikers.

The police demand \$12.50 a month, the same scale that is paid in St. Petersburg. The present pay here is \$6 a month. The private coachmen and livery stable men here struck Sunday. The strike of street railway employes continues.

Some 15,000 strikers from the big iron mills returned to work today, all their demands having been granted. These include a nine-hour day instead of 10½ hours and an increase in wages of from 5 to 25 per cent.

A Difficult Question. St. Petersburg, Feb. 27.—The question of convoking the zemsky sobor is apparently not yet settled. Some of the emperor's advisers are urging the idea that to summon the land parliament at this time would be fatal to the autocracy, but that as a preliminary step toward a representative assembly, it might be well to invite representatives of the people to sit in the council of the empire, a purely consultative assembly with existing conservative elements as a balance wheel.

The Situation at the Front. Mukden, Feb. 27.—Fighting continues in front and west of the pass. On the extreme east the Japanese have taken the outlying positions and they now threaten the main defense. Owing to their formidable attack it is thought that the Japanese artillerymen are veterans from Port Arthur, commanded by General Nogai. Forty wounded Russians arrived at Mukden Sunday and 400 are expected today. Other indications point to an unusual struggle.

Paroled Russian Officers. New York, Feb. 27.—Thirteen officers of the Russian navy who were taken prisoners at Port Arthur and paroled, arrived here Sunday from Chicago, on their way to St. Petersburg. Later the party left for Washington to pay their respects to the Russian ambassador. They will leave here on Thursday for Paris and thence to St. Petersburg.

### CANNOT GET AWAY

Indiana Republican Leaders Will Be Kept From Inauguration.

Indianapolis, Ind., February 27.—Not many Republican leaders in Indiana are going to Washington to witness the inauguration of Vice-President-elect Fairbanks. United States District Attorney J. B. Keating, his first lieutenant, can not get away from here because of sickness in his family. Chairman Goodrich and H. C. Starr, head of the executive committee, have just returned from Washington and probably will not return for the inaugural ceremonies. Governor Hanly will not be able to get away because of the press of business attendant upon the close of the legislature and most of the state officials will be held here by the same reason. A special train for Eleventh district politicians will be made up at Marion next Thursday and one company of the Indiana National Guard will represent that body but there will be no special parade of Indiana men. Vice-President-elect Fairbanks and family will return to Indianapolis as soon after the inauguration as possible to spend the summer here.

Governor Hanly will appoint the railway commission shortly after the adjournment of the legislature. As the positions pay \$4,000 a year there is a host of applicants. It may be stated here, however, that the applicants who want to be favorably considered had better not try to bring pressure on the governor. He is not the kind of a man to stand for that sort of thing. He will make up the commission according to his own best judgment and not to the wishes of the politicians or to those who feel they have some particular influence with him. It is probable that he has already made up his mind in the matter. It is being predicted that he will appoint men of high character and that the personnel of the commission will be a complete surprise to the men who are figuring on landing positions as to how the commission shall be constituted which is especially pleasing to the governor as it leaves him untrammelled in making the appointments.

It is predicted that the Moore amendment to the Nicholson law permitting the filing of a remonstrance against the entire retail business of a ward or township will cost the liquor interests several hundred thousand dollars during the ensuing year. The anti-saloon people are so enthusiastic that they are confident of being able to annihilate the saloon business within a few years. The brewers will probably suffer heavily, as they own the fixtures in hundreds of saloons. The status of their business seems to be more uncertain than it has been since the enactment of the Nicholson law, and the decision of the supreme court upholding the blanket remonstrance clause under which hundreds of saloons have been wiped out by the crusaders. It may be that the temperance people will find that the Moore amendment will bring about such a perfect organization among the saloon men that it will be more difficult to get a remonstrance than it is now, but the anti-saloon leaders are preparing for a more vigorous crusade than ever before.

It was thought that an effort would be made to kill the codification commission's municipal code which provides for an extension of the terms of the present officials until 1908. The principal objection to this is among the Indianapolis machine politicians who are against Mayor Holtzman getting practically another whole term without fighting for it. The big majority in the county here last fall persuaded the Republican leaders that the Democrats will not stand much of a show in a municipal election here this year, so they don't want to be cheated of an opportunity of regaining control. It is believed, however, that the code will become a law practically as it now stands. The bill was ready for third reading when the senate convened this morning.

Woman Started a Riot. Greensburg, Pa., Feb. 27.—Anna Onnaffrey was the central figure in a bloody battle at the Strickler works of the Veteran Coal company in Mt. Pleasant township Saturday night in which two men were killed and six others stabbed, shot or slashed with knives. Anna Onnaffrey's refusal to dance with George Lukesz, an unbidden guest at a wedding celebration, started a riot.

Stoessel Nearing Home. Moscow, Feb. 27.—General Stoessel, late commander of the Russian forces at Port Arthur, and his party arrived here at 9 o'clock Sunday morning. Numerous bouquets were presented to Mme. Stoessel. The general afterward held a reception. He will go to St. Petersburg on Wednesday.

Bomb Found at the Elysee. Paris, Feb. 27.—The bomb placed against the wall of the Elysee, the presidential residence, was found to contain revolver cartridges mixed with nails. Imperfect construction prevented an explosion. The police are religiously hiding the details.

Election Frauds Punished. Denver, Col., Feb. 27.—Jas. Walsh, W. P. Condon and Fred M. Johnson, election officers, were found guilty of frauds committed at the city charter election last spring and were sentenced to jail for six months.

## IN THE LAST WEEK

The 58th Congress Has About Exhausted Its Lease on Life.

### SENATE AWAY BEHIND

It Will Require Long Session For the Upper House to Transact the Business Required of It.

Voting on the Swayne Impeachment Trial Engages Senatorial Attention Today.

Washington, Feb. 27.—At the beginning of the last week of the present session only one of the regular appropriation bills has been finally acted on by congress and approved by the president. This is the legislative, executive and judicial bill. Six other supply bills have passed both houses and are in conference. With only five days of the session left, the senate still has seven of the most important appropriation bills to consider in whole or in part. Of the seven the naval and the Indian bills have been partly read and some features of the naval bill have been discussed. Senators generally appreciate that the task of completing consideration of all these measures before the close of the session at 12 o'clock next Saturday is gigantic, but none of them doubts that it will be accomplished. In order to do all that is requisite it will be necessary greatly to prolong the daily sittings, and it is the present expectation that the hour of convening each day will be fixed at 10 o'clock and that the daily sessions will be extended considerably beyond the usual hour of adjourning. All night sessions are probable the last few days of the week.

Voting on the Swayne impeachment trial is in progress today. A separate vote is being taken on each of the impeachment articles, and on every vote each senator will be expected to rise formally in his place and say whether he considers Judge Swayne guilty or not guilty. A two-thirds vote will be necessary to impeach on any one of the charges.

As soon as the Swayne case is disposed of, the naval appropriation bill will be taken up, and that will be followed by the Indian, the postoffice and the pension appropriation bills in the order named. Considerable debate on the postoffice and Indian appropriation bills is expected, as there will be also on the sundry civil and river and harbor bills, which will be closed in the very last days of the session.

It is expected that the conference report on the Panama canal zone government bill will cause more or less discussion, and such is quite certain to be the case with reference to the conference report on the joint statehood bill, if one should be made.

IN THE HOUSE There Will Be Little Difficulty In Closing Out the Business.

Washington, Feb. 27.—The house enters on the last week of the 58th congress without indication of serious difficulty in completing the legislative program. Speaker Cannon predicts that unless the temper of the body becomes ruffled there need be no protracted night sessions. However, tradition foretells the usual all-night sessions which usher in the last day of the congress. This session, which is broken up by recesses in which conference committees prepare their final reports, is marked by levity and song.

The week began with the sundry civil bill as the topic of legislation. The general deficiency bill, the last of the supply measures, is nearly ready for consideration. Conference reports to be handled include the statehood bill, the Panama canal legislation, and the appropriation bill still unfinished, in all of which there are differences between the two houses.

### ANOTHER MINE EXPLOSION

This Time There Are a Score of Victims at Bluefields.

Bluefield, W. Va., Feb. 27.—As a result of an explosion in shaft No. 1 of the United States Coal and Coke company at Wilcox Sunday, twenty-three miners are supposed to have lost their lives, and it is possible that the number will exceed this. Thus far fifteen dead bodies have been taken from the shaft. A large rescuing party is in the mines and it is barely possible that some of the remaining entombed miners will be rescued alive.

The explosion was of terrific force and shattered glass windows a mile distant. The dead thus far recovered are Italians and Hungarians and have not as yet been identified. The company usually works in this shaft about seventy-five men.

Bodies Covered by Water. Birmingham, Ala., Feb. 27.—The rescuers at work in the Virginia mine have recovered the bodies of two more victims of last Monday's disastrous explosion, which makes the total number recovered up to this time 103. It is believed five more bodies are under the water, which has risen continuously in the mine.

Actual work with the new American steam shovels in the Culebra cut has demonstrated that the entire excavation can be done at a cost of 50 cents a cubic yard.

## Dyspepsia of Women

ABSOLUTELY NEEDLESS AGONY

Caused by Uterine Disorders and Cured by Lydia E. Pinkham's Vegetable Compound

A great many women suffer with a form of indigestion or dyspepsia which does not seem to yield to ordinary treatment. While the symptoms seem to be similar to those of ordinary indigestion, yet the medicines universally prescribed do not seem to restore the patient's normal condition.

Mrs. Pinkham claims that there is a kind of dyspepsia that is caused by a derangement of the female organism, and which, while it causes a disturbance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomach tonic, but has peculiar uterine-tonic effects also.

As proof of this theory we call attention to the case of Mrs. Maggie Wright, Brooklyn, N. Y., who was completely cured by Lydia E. Pinkham's Vegetable Compound after everything else had failed. She writes:

"For two years I suffered with dyspepsia which degenerated my entire system so that I was unable to attend to my daily duties. I felt weak and nervous, and nothing that I ate tasted good and it caused a disturbance in my stomach. I tried different dyspepsia cures, but nothing seemed to help me. I was advised to give Lydia E. Pinkham's Vegetable Compound a trial, and was happily surprised to find that it acted like a fine tonic, and in a few days I began to enjoy and properly digest my food. My recovery was rapid, and in five weeks I was a well woman. I have recommended it to many suffering women."

No other medicine in the world has received such widespread and unqualified endorsement, or has such a record of cures of female troubles, as has Lydia E. Pinkham's Vegetable Compound.

Dowie Colony In Mexico. Mexico City, Feb. 27.—Prophet Dowie of Zion City is expected to arrive here today from Cuba. His five deacons now here refuse to talk on the Zionists' plans, but it is understood a Zionist colony will be settled in the hot country and will devote itself to raising sugar cane, coffee, etc.

Thought It Wasn't Loaded. Ardmore, I. T., Feb. 27.—Miss Besie Irbly, the eighteen-year-old daughter of Marshal J. P. Irbly, accidentally shot and killed Clarence Morgan, her sweetheart. They were playing with a gun which was supposed to be unloaded. The bullet entered Morgan's cheek and he died instantly.

Life Savers Lose Lives. London, Feb. 27.—A heavy gale prevailed off the British coasts Sunday, resulting in several casualties. A boat put off from Holyhead in response to signals of distress, but was capsized and five of her crew were drowned.

Russians Turned Back. Tokio, Feb. 27.—Manchurian army headquarters reports that two infantry attacks by the Russians in the neighborhood of Malton mountain Friday night were repulsed.

TERSE TELEGRAMS The Prince and Princess of Wales will visit India in November.

A score of miners were killed by an explosion in a coal mine at Bluefields, W. Va.

In the Caucasus the strike situation is extremely bad, practically amounting to civil war.

All the Russian railways except the Central Asian, have been placed under martial law.

Ten Jews have been killed and thirty wounded in an anti-Jewish riot at Thedosta, lower Russia.

The Grand opera house at Akron, Ohio, was destroyed by fire Sunday, entailing a loss of \$30,000.

Albert Edward Parker, earl of Morley, deputy speaker of the British house of lords is dead, aged sixty-two years.

Rich placer discoveries are reported on the Skitine in British Columbia and are expected to result in a rush to the new diggings.

Major Robert Clark, who officiated at the laying of the cornerstone of the Washington monument in 1848, is dead, aged eighty-nine years.

On the main points at issue the report of the commission appointed to investigate the Dogger bank incident upholds the British contention.

Evidence is increasing that the strikes throughout the Russian empire are not economic in their origin, but inspired by a definite political plan.

The Illinois Central's terminal at New Orleans, together with much shipping and several great warehouses, was destroyed by fire Sunday night.

An explosion of gas in a mine of the Great Western Coal and Coke company at South McAlester, I. T., injured ten men, one of whom probably will die.

Actual work with the new American steam shovels in the Culebra cut has demonstrated that the entire excavation can be done at a cost of 50 cents a cubic yard.

**OFFENSIVE CATARRH**

I suffered for a long time with a bad case of Catarrh, and took a great deal of medicine without any benefit.

I had a continual headache, my cheeks had grown purple, my nose was always stopped up, my breath had a sickening and disgusting odor, and I coughed incessantly.

I heard of your S. S. S. and wrote you. I commenced to use it, and after taking several bottles I was cured and have never since had the slightest symptom of the disease.

MISS MARY L. STORM.  
Cor. 7th & Felix Sts., St. Joseph, Mo.

Wheeling, W. Va., May 29, 1905.

I had Nasal Catarrh for years for which I used S. S. S. with very gratifying results. I tried local applications for some time, and getting no permanent relief I came to the conclusion that the seat of the trouble was in the blood. Knowing S. S. S. to be a good blood medicine I began its use, and after using it for some little while it did away entirely with the offensive mucus in the nostrils, and I did not have to hawk and spit, especially in the morning, to dislodge the catarrhal matter.

1657 South St. FRED H. PRESSY.

The filthy secretions and foul mucus that are continually dropping back into the throat, find their way into the stomach and are absorbed into the blood. Catarrh then becomes constitutional, and the only way to get rid of it is through the blood. Write us if you have Catarrh, and our physicians will advise you without charge.

MONDAY, FEBRUARY 27, 1905.

The Seymour merchants are stocking up for the spring trade and will be better prepared than ever before to meet all the demands of the public. They anticipate a good spring trade and will be able to take care of it in good shape. There is no better place to buy goods than in Seymour and there is no better place to market what you have to sell. Seymour people need not go away from home to have their wants supplied in the merchandise line.

THE old life insurance companies say that they are opposed to the Guirli insurance bill, permitting foreign mutual insurance companies to do business in Indiana under the same restriction and regulations as home mutual companies do on the ground that they want the public protected. But the people don't believe that is the reason for their opposition. The fact is they do not want the competition. They have been carrying the insurance and the people have been paying an enormous rate. These old life insurance companies want to continue their high rates, and they know they will have a hard time to maintain them against the mutual companies. Their opposition is selfish and they need not try to deceive the people. The senate should make haste to pass this measure, for the people want it.

**MARRIED.**

WILEY-MULLEN.

Mr. M. D. Wiley, of Indianapolis, and Mrs. Mary A. Mullen, of Medora, were married at the M. E. parsonage at 9 o'clock Sunday morning. The bride is the sister of Knowles Mann of this city. The couple went to Indianapolis yesterday evening, where they will make their future home.

**KEITHLEY-WALTS**

Mr. Hubert Keithley and Miss Ella Iona Walt of Georgetown Indiana were united in marriage Sunday February 26th. at the bride's home and a number of relatives and friends were present. The bride has a number of friends in this city, many of her brothers reside. The many friends of the happy couple extend congratulations.

**PFaffenberger-Adams.**

Mr. John M. Pfaffenberger and Miss Clara M. Adams were married at 8:30 last night at the home of the bride by Rev. C. E. Severinghaus. The groom is an employe at Stanfield's saw mill and the bride has been employed in the Seymour woolen mills. They will reside in their new home on west Seventh street which Mr. Pfaffenberger bought recently. They have the best wishes of a great number of friends.

Dr. H. M. Dawson, osteopath, has secured office rooms in the Steinwedel building, No. 8 N. Chestnut street, and is fitting them up today.

Rev. Austin B. Conrad is moving his household goods into the Leroy Miller house on west Second street today.

Reduced prices on groceries for two weeks only, beginning Monday Feb. 27, 1905. Prices are reduced 20 cents on a dollar for cash only. Do not fail to call and see us. N. Hauerperger, corner High and Vine streets, Seymour, Ind. d27-3w1

**SUICIDE.**

Probable Fate of Stephen Douglass, of Brownstown.

Monday morning Stephen Douglass' hat was found in the bridge over White river at Shields. Nearby was an empty carbolic acid bottle and on a girder of the bridge a small glass such as is used for taking medicine.

Douglass left home about three o'clock Sunday afternoon and about dusk was seen entering the Shields-town bridge. It seems probable that he took the contents of the bottle found in the bridge and then dropped into the river which is full of ice at this time.

Monday morning a letter was found in the rural mail box addressed to his wife. In this letter he requested her to keep the children together and stated that he meant to end his life.

He was about forty years old and leaves a wife and three children, two boys and a girl. No reason is given for his suicide.

He was a son-in-law of Abe McCormick and with his family lived near the McCormick home about a mile out of Brownstown. On account of the heavy gorge of ice it has been impossible to make any effort toward recovering the body.

**DIED.**

McPEAK.—Mrs. Hannah McPeak died at Crothersville, Sunday Feb. 16, aged about 70 years. Burial Monday afternoon.

McCANN.—The people were surprised this morning to learn of the death of Benjamin F. McCann who died at his residence on East Second St. at 8 o'clock a. m. One day last week he fell heavily on the ice and suffered injuries from which he did not rally. This with complications of heart trouble resulted in his death. Mrs. McCann was born Oct. 15, 1836 in Muskingum County, Ohio, making his age 68 years, 4 months, 12 days. He came to Jackson county, Indiana in 1864. He was married to Miss Hettie Woodmansee in 1868. To them seven children were born, only two of whom survive, Edward, who resides at Coffeyville, Kansas and Benjamin Jr. of this city. He also leaves one brother and one sister, two half brothers and one half sister to mourn his loss.

Mr. McCann was a good citizen, a devoted, loving husband and father and kindly disposed toward all with whom he came in contact. Many indeed were his acts of generosity and many there are who can attest to his words of sympathy and encouragement.

Mr. McCann was a member of Seymour Lodge No. 204 I. O. O. F. of Seymour and at the time of his death Commander of Ellsworth Post No. 20 G. A. R. In both of these orders he was held in high esteem. Time of funeral published tomorrow.

SALTmarsh.—Chas. A. Saltmarsh died at Newcastle, Saturday Feb. 25 at 9:30 a. m. of pneumonia, aged about 57 years. For many years he resided in Seymour, having come here from Driftwood township near Vandalia, where he taught school. While here he was engaged in insurance and real estate business.

On Wednesday of last week he fell heavily on the street at Newcastle and was unconscious for an hour or more. As a result of the fall he kept his bed until Friday when he determined to go to his work again. Before doing so, however, pneumonia set in on Friday evening and the end came quickly, death following on Saturday morning.

The remains will be brought here this evening on the 5:40 train. Funeral from the residence of his son, I. G. Saltmarsh on east Sixth street Tuesday afternoon at 2:30 o'clock, conducted by Rev. J. A. Sargent, assisted by Rev. J. M. Baxter.

**Revival Services!**

At revival services Saturday and Sunday evenings, Rev. Taylor preached on Hell. He took for his text on Saturday "And in hell he lift up his eyes, being in torment," Luke 16:23, and on Sunday "I am tormented in this flame," Luke 16:24. Hell is not a place where a sinner is punished by the Lord for sin so much as a place where sin works and is wrought and is working punishment on the man who chose it and held to it. It is a historic fact that back of Jerusalem there was a valley, the valley of Gehenna, which was used as a dumping ground for the offal, decayed vegetation of one kind and another where it was buried in order for sanitary protection. Worms crawled there and the fire was never quenched. Just so is hell to the New Jerusalem, a dumping ground for all things contrary to moral sanitary laws of the Holy City. Hell is an absolute necessity. We were created free moral agents and can choose sin but there must be a final result of hell for sin. Hell is a place, the bible says, in outer darkness. God is Light. Hell is outside of all that is God, or like God, a country where no ray of gospel light of purity or love of virtue ever enters. A place where all the bad of all ages from all climes, all nations, at all times, will find a final abode. It is a place of fire God is a consuming fire. For one to fall into the hands of God with anything but that of His nature is to fall into a consuming fire. It is a place of fire because God said Jesus tells us that to those on the left hand on the Judgement Day it shall be said "Depart from me ye workers of iniquity, into everlasting fire." Think of a man making his exit from time into eternity having waded through mother's prayers, fought his way through revival meetings, trampled under his feet the blood of Jesus, stopped his ear to the moans of the dying Son of God. Now he is in hell beyond the bounds of prayer and mercy, a lost soul Oh sinner fly to Jesus. Let Him save you tonight.

Services every afternoon at 2:30 every evening at 7:30. Rev. Taylor preaches tonight Hell an illustration of God's love.

**Kodol Dyspepsia Cure**

Digests what you eat.

**FREE IF IT FAILS.**

W. F. Peter Drug Co. Offer The People of Seymour Vinol, a Body Building, Strengthening and Healing Medicine.

We have a warranted cure for all thin, tired, debilitated, nervous people. It is Vinol, the most delicious and valuable preparation of cod liver oil ever discovered. Vinol tones up the digestive organs, cures all stomach troubles, makes rich, red blood, creates strength, and builds up firm, healthy flesh.

Mr. Frank Graves, a lawyer of Winoski, Vt., writes: "Permit me to say a word endorsing the peerless merits of your cod liver oil preparation, Vinol. I was in very poor health when I bought my first bottle of Vinol, and I wish every sufferer could see what it has done for me. It brought back my appetite, put flesh on my bones, strengthened my nervous system and toned up my whole physical condition. Vinol simply did wonders for me."

As we have so often stated in these columns, Vinol is the greatest strength creator known to medicine, and we do not believe there is a person in this vicinity but what Vinol will benefit at this season of the year; it never fails to make the weak strong and the sick well.

Vinol is just as valuable for all hacking coughs, chronic colds, throat and bronchial troubles, and we return money if it fails. W. F. Peter Drug Co.

**In Memoriam.**

Hall of Seymour Lodge 204 I. O. O. F., Degree of Rebekah No. 697 Seymour, Indiana.

He who in the hour of trials and bereavement hath the balm to give peace to troubled souls and to bring cheer and comfort to the despondent hath also power to take from us that which he hath given. 'Twas he who in his infinite wisdom removed from this temporary home to His eternal home our sister, Myrtle Vande Walle, who departed this life on the 21st day of February, 1905. Therefore be it

RESOLVED, That in the death of sister Vande Walle this lodge has lost a worthy and estimable member and the bereaved family has lost an affectionate wife, a dutiful daughter and a sympathizing sister. Be it further

Resolved, That this lodge extends to the heart-broken husband and mourning relatives and friends our most hearty sympathy in this their time of sorrow and bereavement and that these resolutions be spread on the records of this lodge and published and also that the husband of our deceased sister be furnished with a copy of same and that our charter be draped in mourning for thirty days.

PEARL DEGOLEYER, LOUISE AUFFERHEIDE, MYRTLE MORTON, Committee.

**Surprise Gathering.**

About twelve couples, members of the German Lutheran church, gave a surprise party last night on Mr. and Mrs. J. H. Droege. The plans had been cleverly conceived and were successfully carried out, the affair being a total surprise to Mr. and Mrs. Droege. The party was given in farewell to them, as they are going to move on a recently bought farm about next week. The guests brought their own lunch and the evening was a most pleasant one spent in music and conversation.

**A Citizen Of Seymour Supplies The Information.**

Over half the complaints of mankind originate with the kidneys. A slight touch of backache at first. Twinges and shooting pains in the loins follow.

They must be checked, they lead to graver complications. The sufferer seeks relief. Plasters are tried, and liniments for the back.

So called Kidney cures which do not cure. The long-looked-for result seems unattainable.

If you suffer, do you want relief? Follow the plan adopted by this Seymour citizen.

Harrison Dowell of 120 Jeffersonville Ave., gatekeeper for I. R. R. says: "I did not use many Doan's Kidney Pills myself but they proved very efficacious. My wife and I procured them at C. W. Milhous' drug store and in addition to our experience which warrants us in recommending them I know of acquaintances who have used them with the best results. We always keep them in the house for they proved a reliable remedy for the back, bladder, or kidneys."

For sale by all dealers. Price 50 cents. Foster—Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name Doan's and take no other.

**SHOE BAG.**

Footwear Recreates to Hang Inside the Closet Door.

To make a pretty shoe bag take one yard of wide red and cream bed ticking. Cut from one side enough to leave

HANDY SHOE BAG.

the piece twenty-two inches in width. Face this on the back with turkey red calico. A pocket (1) for hose is made of turkey red box plaited to the bottom of the larger piece. Stitch this to the foundation, gathering the extra fullness at the top of the pocket.

Take the ticking which was cut from the side and bind it with black velvet (that from an old hat answers nicely), then fold it into four parts. Box plait the bottom and stitch to the foundation. This makes four (2) pockets for shoes. Turn over each of the top corners and fasten with a bow of red ribbon. A brass ring is secured at the top to hang the bag by. Fasten it to the inside of clothespress door. The illustration will make the idea clear.

**A Swarm of Household B's.**

Be careful. Care prevents many dropped stitches and bad breaks. Be careful.

Be prompt. Slackness makes slovenly homes and weary world wanderers. Be prompt.

Be faithful. "Be thou faithful unto death, and I will give thee a crown of life." Be faithful.

Be cheerful. Cheerfulness tends to length of days and to days that are worth the lengthening. Be cheerful.

Be thoughtful. Thoughtfulness is too tender a plant of blessed fragrance and beauty to be "born unseen," etc. Be thoughtful.

Be good humored. Good humor is better than medicine, no matter how well the ill natured pill be sugar coated. Be good humored.

**CAUSES OF BALDNESS.**

The Tight Fitting Hat Makes the Scalp a Hotbed of Microbes.

There is every reason to believe, says the New York World, that primitive man had a thick and abundant head of hair and that this natural clothing of the scalp is diminishing among civilized peoples and will end by disappearing altogether. The cause of this disappearance of the hair, according to the doctors, must be sought in the very conditions of civilization and in the customs it has introduced. One of the customs especially harmful to the hair is the masculine hat.

The hat produces baldness by two different methods, first by creating about the head an atmosphere which is fatally warm and moist and which prevents the penetration of the rays of light that are so fatal to bacteria; the hat makes a sort of improvised hotbed for microbes, and they play an important role in the production of baldness. If it had been desired to foster the existence of microbes capable of living upon the scalp or in the hair, a more favorable means for their protection and multiplication than the hat could not have been found. Again, the hat, holding its place upon the head solely by pressure, exerts a second pernicious influence upon the scalp; it compresses the arteries and the veins; it impedes the circulation of the blood and consequently the nutrition of the organs which produce the hair.

As a matter of fact, men would be very healthy with bare heads. The hair would be strengthened and would serve as a hat; it would only be necessary to protect the head against the rays of the sun in summer in order to avoid sunstroke. It is true the public imagines that it would catch cold more easily, but this is a mistake. From the hygienic point of view there are fewer inconveniences in going with the head bare than in carrying about upon it a hotbed for microbes.

**A Touching Story**

is the saving from death, of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for consumption, coughs and colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At W. F. Peter Drug Co., 50c and \$1.00 guaranteed. Trial bottle free.

**Surprise Snow.**

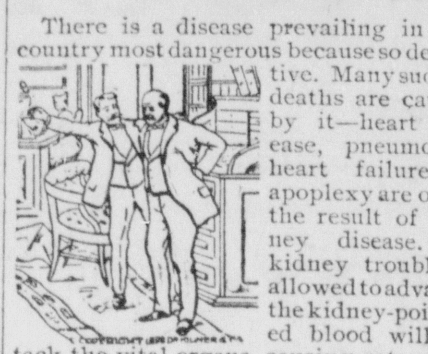

Everybody was surprised this morning to find the ground covered with snow,—about two inches falling up to eight o'clock. By noon it had begun to disappear and before night it was about all gone.

**Peculiar Disappearance**

J. D. Runyan, of Butlerville, O. aid the peculiar disappearance of his painful symptoms, of indigestion and biliousness, to Dr. King's New Life Pills. He says: "They are a perfect remedy for dizziness, sour stomach, headache, constipation, etc." Guaranteed at W. F. Peter Drug Co. price 25c.

**The Cause of Many Sudden Deaths.**

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused

by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

### Nathan Powell Dead.

Nathan Powell, who was a candidate for Congress in the fourth congressional district in 1900, died suddenly of apoplexy at his home in Madison Sunday. His wife was visiting in Cincinnati at the time. His death was quite a surprise and shock to his friends and neighbors because he was apparently in the best of health.

Mr. Powell belonged to a very prominent and wealthy family at Madison and he had many friends throughout the state. During his candidacy for Congress, Mr. Powell made many friends in this vicinity, who will be pained to hear of his death. He stopped off here between trains about a month ago and called on a number of friends. Mr. Powell was about 44 years of age and leaves a wife and two daughters.

### Fools!

Beginning next Sunday evening Rev. Austin B. Conrad, pastor of the First Baptist Church will preach a series of sermons on "Fools," as follows:

March 5.—The Rich Fool, Luke 12:20.

March 12.—The Atheistic Fool, Ps. 14:1.

March 19.—The Talkative Fool, Ecc. 10:14.

March 26.—The Wise Fool, Cor. 4:10.

A hearty welcome will be accorded to all to hear these sermons. Large congregations attended both services at this church yesterday. Both sermons were plain practical presentations of truth and those who heard were both pleased and strengthened.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution, and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:

### OFFICERS CAME

And Took Frank Knight Back to Duquoin, Illinois.

Constable Morgan, who came here from Duquoin, Illinois, for Frank Knight, left with his prisoner on No. 1 Sunday and before this time has the young man back home where he is to be tried for shooting an Italian February 4. Knight was handcuffed before he was taken from the jail here, but walked out smiling.

The Illinois officer said that Knight had frequently been guilty of minor offenses but nothing so grave as the present charge against him. He is of the opinion that Knight will be convicted.

The officer also said that Knight has a brother in prison now for killing his own brother a year or two ago. He says that the saloon kept by Knight's father is regarded as one of the toughest joints in Duquoin. Frank Knight, he says, has been a fighter from his boyhood.

From the time Knight was arrested here Friday evening by Marshal Prewitt and Policeman Elrod until he was taken away Sunday he conducted himself as a model prisoner. He seemed at ease all the time and when he left he said he was glad to go back for he believed he would be acquitted.

### New Train Service.

The new train service was put on the Southern Indiana between Bedford and Westport last Sunday. This train makes one round trip to Bedford and two to Westport daily. It now leaves Bedford at 7 o'clock reaching Seymour at 8:15 a. m. It then leaves here at 8:40 and returns from Westport, reaching here at 11:05 a. m. It then leaves here again in the afternoon at 3 o'clock and reaches Westport at 4. It comes back straight through to Bedford, stopping at the Seymour Junction at 5:30.

Several other changes were made in the time of the other trains. The afternoon train arriving here at 3:15 and leaving at 5:30 terminates its run at Bedford hereafter.

### Fiendish Suffering

is often caused by sores, ulcers and cancers, that eat away your skin. Wm. Bedell, of Flat Rock, Mich., says: "I have used Bucklen's Arnica Salve for ulcers, sores, and cancers. It is the best healing dressing I ever found." Soothes and heals cuts, burns and scalds. 25c at W. F. Peter Drug Co., guarantee.

### Tarkington's Play.

Booth Tarkington's play, "The Gentleman from Indiana," will attract many people to Indianapolis this week. This will be the first presentation of this play. The story has been widely read and enjoyed, though many Indiana people do not believe that Mr. Tarkington has fairly represented the Hoosier character. In fact his characters are not to be found in Indiana. But with all that the story is a good one and the play is sure to be appreciated by all who see it.

### While There is Life There is Hope.

I was afflicted with catarrh; could neither taste nor smell and could hear but little. Ely's Cream Balm cured it. —Marcus G. Shantz, Rahway, N. J. Cream Balm reached me safely and the effect is surprising. My son says the first application gave decided relief. Respectfully, Mrs. Franklin Freeman, Dover, N. H.

The Balm does not irritate or cause sneezing. Sold by druggists at 50 cts. or mailed by Ely Brothers, 56 Warren St., New York.

Although we've been in the coal business only a year we've built up a trade that we are proud of.

The secrets of our success are:

**Honesty, Low Prices and Fair Dealing.**

We've urged our friends to buy coal of us because we know that we sell the largest variety of the best kinds of coal on the market and at the lowest prices, and so we again advise everyone to order some

**Black Creek or Raymond City Coal.**

Because we know them to be the best burners, heaters and cooking and baking fuels of all the low-priced grades that are mined. We especially recommend these two grades, although we also handle a large number of other kinds that are the best in their line.

Try Some Black Creek or Raymond City Soft Coal. You'll Never Regret Having Done So, But Will Want More When Your First Supply is Gone.

## You Get Up

In the morning tired, languid, and frequently with a headache that is almost unbearable. You have been nervous, restless and sleepless night after night, and gloomy and irritable during the day. This nervous exhaustion affects the heart, lungs and other organs that depend upon the nerves for motive power. Then the stomach fails to digest the food; the heart action is weak, and circulation poor, and the kidneys and liver inactive.

What you need is not a stomach, head, kidney or liver medicine, but Dr. Miles' Nerve Tonic to soothe and feed the nerves and build nerve tissue.

"My wife was subject to severe mental strain, which resulted in nervous prostration. The first symptoms were uncontrollable crying and melancholy spells, which increased to such an extent that for over a year she would have a spell every day of from four to six hours duration. She required the constant attention of her physician and attendants. She suffered great pain and anguish. The best physicians attending her could give no relief, and she finally became almost of unsound mind. As a last resort I began giving her Dr. Miles' Nerve Tonic, and noticed that her spells next day were not so severe, and they gradually disappeared altogether. She has had no recurrence of the spells, and is gaining in health and strength."

J. P. O'Neil, Dr. Sterling, Ill.  
Dr. Miles' Nerve Tonic is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

## BRITONS WELL PLEASED

Commission Upholds Their Contentment in Dogger Bank Affair.

London, Feb. 27.—The publication of the decision of the international commission of inquiry into the North Sea incident has caused a feeling of relief and sincere pleasure among all classes. On the main point at issue the British contention is upheld. That is, that the fishing fleet committed no hostile act; that there were no torpedo boats among or in the vicinity of the fishing fleet and that there was no justification for the order of Ro-

ADMIRAL POURNIK.

[President of the international commission.]

estvensky to open fire. "The British public is not prepared to coincide with the commission's findings that the Russian admiral was justified in proceeding without assisting the damaged trawlers or that he did all he could to prevent the trawlers from being the object of fire by the Russian squadron, and it is believed the facts would have justified a much more severe finding than regrets that Rojstevsky did not inform the British government of his action."

A Russian View.

Paris, Feb. 27.—Dr. Mandelstamm, one of the Russian counsel during the North sea inquiry, writes as follows: "Regarded from the viewpoint of humanity alone, the commission's work has immense importance. The admirals' report is the result of common efforts and mutual concessions to save mankind from the horrors of a general conflagration. The names of the rulers and ministers who brought it about and of the commissioners who weighed the evidence deserve entry in the golden book."

WONDERFUL REVIVAL

Louisville Touched as Never Before in Her History.

Louisville, Ky., Feb. 27.—Meetings in twenty-four churches, theaters and halls Sunday concluded the main effort of one of the most remarkable religious revivals seen in America during the past fifty years. During the two weeks just closed 6,500 persons confessed Christianity. As about 65,000 of Louisville's 220,000 population had no church affiliation before the revival began, the two weeks work resulted in the conversion of 10 per cent of the churchless. The revival has been systematically conducted, meetings being held at all geographically advantageous points, theaters and halls in the business portion of the city being used. Eighteen visiting evangelists took part in the work, some of whom will remain for a month longer to follow up the work. Fifteen hundred persons were yesterday added to the 5,000 already converted, this being the final "decision day."

London, Feb. 27.—Sir Henry Irving continues to improve.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters, of 546 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctor's drug, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at W. F. Peter Drug Co., price 50c.

## ANTI-TRUST BILL

Its Passage in the House Aroused a Strong Lobby.

AN ORGANIZED EFFORT

Will Be Made to Prevent the Passage of This Drastic Measure in the Upper House.

Legislative Reapportionment Bill Has Been Favorably Reported in the House.

Indianapolis, Ind., Feb. 27.—The house committee on legislative reapportionment today reported for passage the senate bill which was handed down Saturday by Speaker Cantwell. The Republicans, as a matter of course, reported the bill for passage as the reapportionment plan is of their own making. The Democrats made a minority report but the Republicans can pass the bill whenever they see fit as they have over two thirds of the membership. It will be possible for them to suspend the rules and put the bill through at pleasure even if the Democrats try to duck. It is not within the power of the Democrats to obstruct the passage of the bill very long.

It is probable the bill will be read for a second time tomorrow and placed on passage Wednesday. Two years ago some of the Republicans bolted the caucus but there will hardly be anything of that kind this time. The bill was drawn up by Frank L. Littleton, of this city, who was speaker of the house in 1897, and who has attempted to avoid the features that made the reapportionment two years ago unconstitutional. It will give the Republicans a few more members than they had in the sessions prior to the landslide which gave them their present overwhelming majority.

A feature of the session today was the introduction of the general appropriations bill by Chairman Sayre, of the ways and means committee who will have charge of it on the floor of the house.

The passage of the Guir anti-trust bill by the house by an almost unanimous vote has greatly alarmed the capitalist classes and an organized attempt will be made to defeat it before the senate. It was explained to the house by Representative Guir, who introduced the bill that it follows closely the provisions of the Sherman anti-trust law, but it is said to be more stringent than the latter. It gives state and county officials sweeping powers to investigate the business of any corporation which it suspected of attempting to restrain or monopolize trade in its particular line. The bill is so drastic that the corporations had no idea it would pass either branch of the legislature. Representative Condo, of Marion, made a vigorous protest against it, but his motion to indefinitely postpone was snowed under by an avalanche of negative votes.

The fact that but ten members voted against the bill is regarded as evidence of the tendency of this legislature to enact drastic laws for the regulation of the business of corporations.

A bill similar to the one passed by the house was introduced several days ago in the senate and referred to the committee of which Senator Will Wood is chairman. Senator Wood is against it and has not reported it. The advocates of the house bill will ask Lieut. Gov. Miller to refer it to another committee that will report it favorably immediately.

In order to make sure of the constitutionality of the Indianapolis track elevation bill, the one introduced in the house was passed by it under suspension of rules. The question has been raised as to whether or not the bill should have originated in the house or senate. The one placed on final passage Saturday originated in the senate.

The railroads received another black eye when the house unanimously passed the Ft. Wayne track elevation bill which was introduced and put through the senate by Senator Urey.

A letter was read to the house from the widow of Oliver P. Morton thanking the general assembly for appropriating \$35,000 for a monument in his memory.

The Roemer divorce bill which passed the senate was amended so that proof of residence shall be made by two residents of the state instead of county.

Two Boys and a Gun.

Ice at Madison Breaks.  
Madison, Ind., Feb. 27.—The ice in the Ohio river at this point broke Sunday. Little damage was done to shipping.
